# CIT 249: Java II
Chapter 12
Programming Assignment 1

Complete #1 on page 476. When this program is run it will display as:

You are required to follow the directions:

- You must create a frame setting its layout to FlowLayout
- You must create 2 panels and add them to the frame. Button1-Button3 should be in one panel, with the remaining buttons in the second panel.
- Each panel must be set with a layout manager of FlowLayout.
